PROFILE SUMMARY

Enthusiastic and dedicated IT professional with over 4 years of experience in Web Development, specializing in creating dynamic, responsive, and user-centric web applications. Passionate about delivering excellence through innovative solutions, embracing challenges, and continually seeking opportunities to enhance processes and drive technology innovation. Proficient in both front-end and back-end development with a strong foundation in software engineering, full-stack development, and UI/UX Development. A skilled team player, adaptable to new trends, and capable of translating business needs into efficient technical solutions.

EXPERIENCES

Junior Programmer
KlioTech LLP

Jun 24 - Present | 17 months

- Developed and maintained responsive web applications using Angular and TypeScript
- Implemented new features and resolved bugs for improved UI/UX and system stability
- Integrated REST APIs, optimized front-end performance, and ensured cross-browser compatibility
- Used Git for version control, participated in code reviews, and created reusable components
- Documented technical solutions and contributed to knowledge sharing among teams.

Skills: TypeScript, Git, REST APIs, Angular, User Experience (UX), Cross-browser Compatibility

Project Associate
Isolve Technology Pvt Ltd

Apr 22 - Apr 24 | 24 months

- Worked on UI/UX development focused on usability and responsiveness
- Developed reusable components and interactive features to enhance scalability
- Applied modern design principles for cohesive and visually appealing user experiences
- Collaborated with cross-functional teams, managed up to 5 projects meeting deadlines and quality standards

Skills: Scalability, Project Management, Front-End Development, Responsive Web Design, Usability, Cross-functional Collaborations

Assistant Developer
Aarthi Scans and Labs

Aug 21 - Mar 22 | 7 months

- Designed and developed internal web applications for office operations
- Built and deployed an Incentive Flow Management (IFM) system to improve workflow efficiency
- Gathered requirements, recommended technical solutions, and optimized application performance
- Managed multiple simultaneous projects and assisted in debugging, testing, and implementing new features

Skills: Web Application Development, Debugging, Testing, Requirements Gathering, Process Efficiency, Deployment Management, Efficiency Optimization, IFM

EDUCATION

P.S.R. Engineering College
Bachelor of Computer Science Engineering, CSE

2021

SKILLS

Languages: JavaScript, HTML, CSS, TypeScript

Frameworks: Angular, NodeJS, Express, Bootstrap, jQuery, Chart.js, Datatable.net, PrimeNG

Tools: Postman, Visual Studio Code, GitHub, Git, Netlify, Render

Techniques & Processes: UI/UX Development, Agile Web Development, Responsive Design, API Integration, Version Control, Performance Optimization, Debugging, Full-Stack Development, User Interface Design, Back-End Web Development, Scalability, REST APIs, Project Management, Front-End Development, Code Review, API Development, Testing, Software Engineering Practices, Cross-browser Compatibility, Usability, Optimizing Performance, Deployment Management, Efficiency Optimization, ExpressJS
